

# Flexible financial management software: our name says it all.

## SIMPLIFYING ACCOUNTING PROCESSES... all of them.

### REAL-TIME VISIBILITY

With Flexi, you'll have everything you need at your fingertips to view, analyze and report real-time financial data, ensuring business decisions are always based on accurate, timely data.

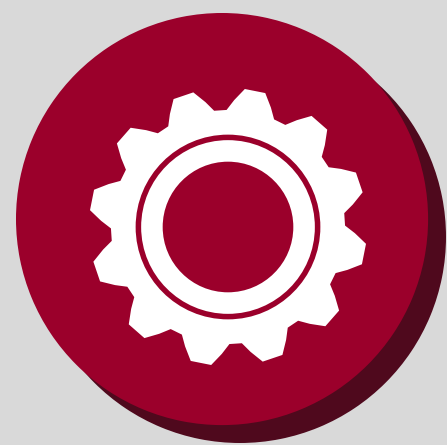

### PROCESS DRIVEN AUTOMATION

Based on your business rules, our SOA architecture automates your workflow, saving hours, days or weeks, which can reduce costs by up to 90%\*.

### SINGLE, OPEN PLATFORM

Flexi automates the entire accounting workflow process in one superior platform. Open architecture allows data to flow seamlessly and securely in real-time - with any system - delivering unmatched speed and performance.

### FASTER ROI

Flexi offers all the rich features you'd expect from a top tier platform, but without the high cost. Easy setup and quick implementation add to the reasons why Flexi delivers ROI in months, not years.

### PROVEN, TRUSTED

Trusted by enterprises for 25+ years. We've deployed thousands of implementations across the globe, either directly or private labeled through our strategic partner network.
