

## FlexiAnalysis

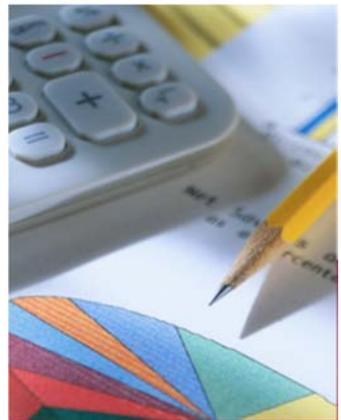

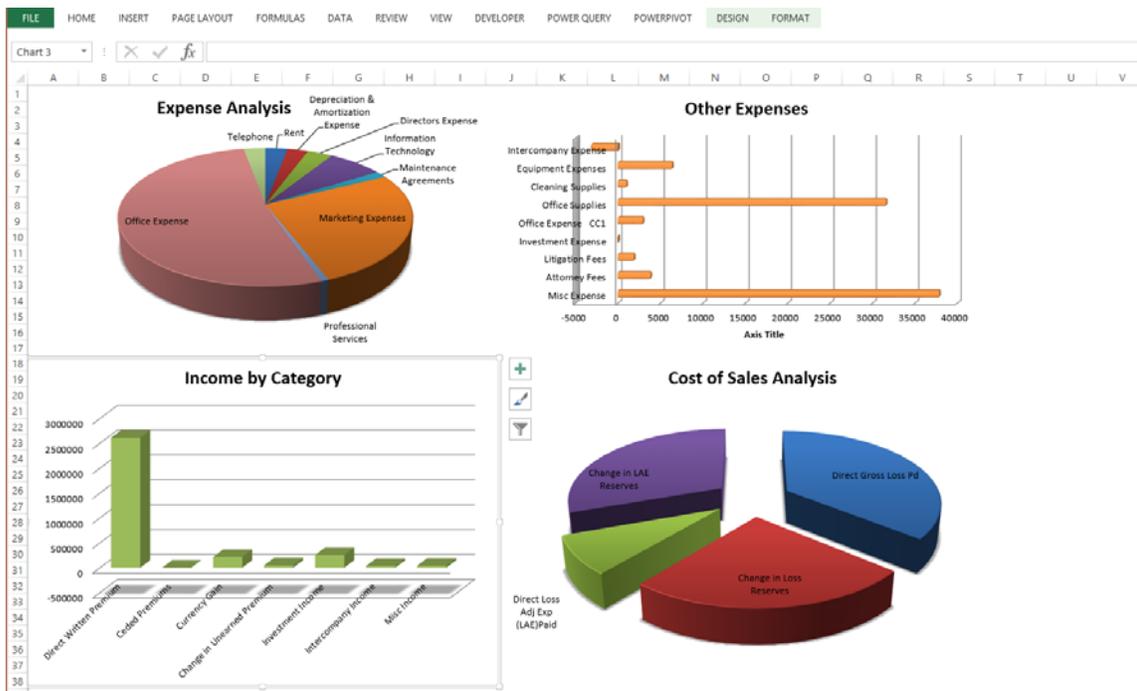

**FlexiAnalysis** is a reporting and analysis tool that gives accountants and financial analysts insight into your business. It allows you to visualize, slice, and drilldown on large volumes of data held within FlexiFinancials. And it does so with a simple to use interface and leverages a familiar tool: Excel

FlexiAnalysis is a self-service BI tool designed for **Accounting Power Users**, and not BI architects or developers. It gives finance users the ability to create graphs and pivot tables with a simple **drag and drop** interface. FlexiAnalysis comes **out of the box with connectors** to various FlexiFinancials modules, such as FlexiPayables, FlexiReceivables, FlexiLedger, FlexiAssets and more.

Users can create **interactive charts and graphs** by applying 'Slicers' to their report. This gives you the flexibility to interact with your data in an intuitive way. You can even drill down on charts to find out the meaning behind the numbers.

### Create Reports Quickly and Easily

- Preconfigured connections to Flexi modules
- Predefined templates around common business processes gets you started quickly
- Simple drag and drop interface allows Power users to create new reports in minutes.
- Create visually appealing analytic models that combine various formats and charts and graphs
- Leverage your existing knowledge of Excel resulting in an easy learning curve
- Personalize your report format using standard Excel formatting
- No dependence on IT to build a data model for you

### About Our Technology

Flexi's open, non-proprietary architecture is based on the latest Microsoft standards and tools. It supports industry standard databases such as Oracle and Microsoft SQL Server and allows for easy integration through Web services. The Flexi applications utilize Microsoft SharePoint to provide browser based, enterprise-wide content portal and workflow capabilities.

### About Flexi Software

Founded in 1991, Flexi develops, markets, and supports FlexiFinancials, workflow-driven enterprise accounting solutions for companies in select industries including Banking, Insurance, and Financial Services. Flexi distributes its products directly and through strategic partnership agreements. Through many successful deployments Flexi has a proven track record of low cost of ownership, ease of use and improved business processes.
