

FlexiWorkflow™ and eT&E

FlexiWorkflow, the approval workflow module, and eT&E Add-On, the electronic Travel and Expense (T&E) processing extension for FlexiWorkflow, are parts of FlexiFinancials suite of accounting applications.

FlexiWorkflow delivers a simple way to define and manage routing of accounting documents through an approval process and store them for historical reference. FlexiWorkflow is based on Microsoft SharePoint technology and has such innovative features as a drag-and-drop Visio-like designer, email- and browser-based approvals, and tracking of bottlenecks.

eT&E (electronic Travel & Expense) is an ideal way for moving toward a near paperless and automated capture of employee expenses while communicating and enforcing a company's account payables rules. It virtually eliminates the paper shuffle between the employee, remote office locations, and the central Accounts Payable department while providing full visibility of the process.

PROVEN SOFTWARE TRUSTED BY WORLD- LEADING BRANDS

Founded in 1990, FlexiInternational Software™ (Flexi) has simplified accounting in industries including insurance, healthcare and financial services where speed, performance and security are paramount.

Flexi's full-featured platform has powered many high-value brands, including Fortune 10 companies and some of the world's largest banks.

Seamless Integration to Simplify eT&E

The following modules work together with full interoperability, bringing you a single system for managing eT&E.

- FlexiPayables
- FlexiImaging
- FlexiLedger

FLEXiSoftware

ABOUT OUR TECHNOLOGY

Flexi's open, non-proprietary architecture is based on the latest Microsoft standards and tools. It supports industry-standard databases such as Oracle and Microsoft SQL Server and allows for easy integration through Web services. The Flexi applications utilize Microsoft SharePoint to provide browser-based, enterprise-wide content portal and workflow capabilities.
